Summary

Aspiring data scientist pursuing MCA with specialization in AI ML, equipped with strong knowledge of Python, machine learning, and data analytics. Experienced in full-stack development and data-driven projects during internships. Enthusiastic about leveraging data and AI to solve complex problems and contribute to innovative, data-centric solutions.

Technical Skills

Programming Languages: Python

Web Development: HTML, CSS, JavaScript

Database Management: MySQL, MongoDB

Generative AI: Machine Learning, Deep Learning, Hugging Face, NLP, Langchain

Others Tools & Technologies: Data Science, VS code, Git and Github, Jupyter Notebook, Figma

Projects

Fruit Slice Game

Jan 2023

Frontend game developer

HTML, CSS, JavaScript, and jQuery

- Built an interactive fruit slice game using HTML, CSS, JavaScript, and jQuery.
- Implemented smooth slicing effects, falling fruits animation, and real-time score tracking using jQuery events and DOM manipulation
- Added randomized fruit generation, life-count system, and game-over logic for an engaging gaming experience.

Face recognition system

Aug 2025

Machine learning project

Python, OpenCV, and face recognition libraries

- Developed a face recognition system using Python, OpenCV, and face recognition libraries.
- Implemented face detection using Haar Cascades / HOG-CNN models and recognized faces through encoding and distance matching.
- Built a training pipeline for capturing images, generating face encodings, and storing them for accurate predictions.

Experience

Full Stack web development intern

Sep 2024 – Nov 2024

ConsultIT

Noida, Delhi

- Assisted in developing and maintaining simple web pages using HTML, CSS, and JavaScript
- Worked on basic backend functionality using Python (Flask) for small internal projects.
- Supported data preprocessing tasks for AI/ML experiments under guidance of senior team members.
- Helped in testing web application and reporting issues to the development team.
- Gained exposure to teamwork, project coordination, and practical software development processes.

Education

K.R. Mangalam University, Gurugram

M.C.A in AI/ML with microsoft certified

Sohna, Haryana

Aug 2025 – June 2027

Netaji Subhas University, Jamshedpur

B.C.A

Jamshedpur, Jharkhand

Aug 2022 – June 2025

Certifications

- IBM Machine Learning with Python
